John Beaulieu, Siri & Glimstad, LLP, Louisville, KY, for Petitioner.

James Connor Daughton, U.S. Department of Justice, Washington, DC, for Respondent.

RULING ON ENTITLEMENT¹

On May 9, 2024, Anthony Farrell filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that he suffered a shoulder injury related to vaccine administration (“SIRVA”) following an influenza vaccination he received on November 4, 2023. Petition at 1. Petitioner further alleges that he has suffered the residual effects of his vaccine-related injury for more than six months. Petition at ¶ 22. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On March 11, 2025, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at

1. Respondent states that “Petitioner’s claim meets the Table criteria for SIRVA. Specifically, Petitioner had no history of pain, inflammation, or dysfunction of his right shoulder prior to vaccination; pain occurred within forty-eight hours after receipt of an intramuscular vaccination; pain and reduced range of motion were limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain Petitioner’s shoulder pain.” *Id.* at 8. Respondent further agrees that “based on the medical records outlined above, Petitioner suffered the residual effects of his condition for more than six months.” *Id.*

In view of Respondent’s position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
